Starting and stopping vehicle

Task Requirements

Demonstrate the ability of starting the vehicle safely and easing the accelerator on to start movement. Ability to slow down and stop and correctly turning the vehicle off.

Progress Check

Task Key Points

Removes the handbrake with foot on the brake and pushes clutch all the way in (manual).

Selects the correct gear (manual) or drive (auto) and eases pressure on the accelerator.

Slowly releases clutch (manual) and increases pressure on the accelerator.

Drives in first gear (manual) at a slow and consistent speed in a straight line.

When stopping vehicle the clutch pedal is pushed all the way in (manual) and foot eased on to brake pedal.

Ensures the handbrake is on before turning the vehicle off.
