Reversing

Task Requirements

Demonstrate safe and controlled reversing.

Progress Check

Task Key Points

Positions the car safely and correctly to begin the reversing process.

Checks mirrors and blind spots, scanning the road environment, pedestrians and observing other traffic.

Looks over left shoulder and out of the rear and side window while reversing.

Steers correctly and keeps the steering wheel stable throughout the manoeuvre.

Uses controls, gears, steering, brakes, accelerator and clutch correctly.

Reverses to a pre-determined point, keeping the vehicle within ½ metre of the kerb throughout the exercise.

Requires full assistance

Requires some assistance

Requires no assistance
