8 Turn Around

Task Requirements
Demonstrate a safe, legal and efficient turn around manoeuvre.

Task Key Points

Selects a safe and legal location to perform the turn around manoeuvre.

Starts with the vehicle positioned parallel to the kerb and checks mirrors and blind spots to ensure a clear view of traffic from all directions.

Indicates right, at least five seconds before commencing the manoeuvre.

Quickly turns steering wheel to ‘full lock’ to the right while moving forwards slowly, and stops before touching the kerb.

Looking through the back window, moves backward slowly when safe to do so and after checking mirrors and blind spots. Turns steering wheel quickly to the left while moving backwards.

Reverses only as far as necessary to clear the kerb on next forward movement.

Straightens wheels before stopping.

Indicates correctly to complete manoeuvre and drives forward if safe to do so.
