

19 Looking out for Motorbikes and Bicycles

Task Requirements

Demonstrate awareness of motorbikes and bicycles on the road.

Progress Check

Task Key Points

Performs shoulder checks before changing lanes, overtaking, moving off from a stopped position or opening a vehicle door.

Shows extra caution at intersections and roundabouts.

Demonstrates patience when overtaking, and overtakes motorcycles the same way that they would overtake another car.

Indicates intended manoeuvres and movements well in advance.

Maintains a safe following distance from motorbikes (a minimum of two seconds in ideal conditions and at least four seconds in wet weather or adverse conditions).

Keeps a minimum of 1.5 metres from cyclists when overtaking them.

Requires full assistance

Requires some assistance

Requires no assistance
